Dear Muhammad Taha Tariq,

It is a pleasure to welcome you as a Student Member of the American Society of Mechanical Engineers, and to congratulate you on your decision to join ASME's global community of over 90,000 engineers, technical professionals and engineering students. This welcome package includes a lot of information that will help you get started on your membership journey.

Enclosed you will find your ASME Student Membership card and lapel pin, which identifies you as an active Student Member of ASME and provides your membership number and local Student Section information. Also attached to this letter is your personalized ASME Student Member Certificate, which we hope you will display proudly. I would like to encourage you to take advantage of the many benefits your ASME Membership affords you. A summary of these benefits can be viewed on our website at: [go.asme.org/students](http://go.asme.org/students)

Your first issue of Mechanical Engineering\* magazine should arrive in about 4-6 weeks. However, in the meantime, you can instantly view the digital version of our current issue or past issues of the magazine at: [www.memagazinedigital.org](http://www.memagazinedigital.org)

One of the best ways to get the most out of your membership is to participate in ASME.org online communities and interest groups. ASME.org communities are our own social network where you can connect, collaborate, and innovate with other students and engineers in more than 140 countries around the world. ASME also gives you a number of benefits geared for you, including scholarships, loans, mentoring opportunities, internships and competitions that will test your engineering expertise, and much more....

Have a question? Our world-class customer service representatives are available to assist you, so please feel free to call us at (800) THE-ASME or at 1-646-616-3100. You can also reach out to us via email at [customercare@asme.org](mailto:customercare@asme.org)

Warmest regards,

John V. Beck

Manager, Membership Development
